1996
Uniform System of Accounts
For
Class C
Water Utilities

Pursuant to action by the National Association of Regulatory Utility Commissioners, this System of Accounts is recommended to the Commissions represented in the membership of this Association for consideration and for adoption in their respective jurisdictions with such modifications only as they may deem necessary in the public interest.

PREFACE

The 1996 Water and Wastewater Uniform systems of Accounts were proposed by the Subcommittee on Accounts of the Committee on Finance and Technology of the National Association of Regulatory Utility Commissioners (NARUC). The NARUC Executive Committee unanimously approved these uniform systems of accounts at its Summer Committee Meeting held in Los Angeles, California, July 22-25, 1996. We would like to express our appreciation to Marshall Willis of the Florida Public Service Commission for his participation in this project and the many hours he spent writing these uniform systems of accounts.

Summary of Proposed Revisions to the
NARUC Uniform System of Accounts for
Class A, B & C Water and Wastewater Utilities

<u>Proposed Changes</u>	<u>Water</u>	<u>Wastewater</u>
1. Change the term "sewer" to "wastewater" where applicable to conform with the terminology currently used by the industry.	A B C	A B C
2. Increased the Class A, B & C revenue levels to account for inflation since the levels were last changed in 1984. This was done based on the same index used to set the levels in the 1984 revision. New levels are: <div style="margin-left: 40px;"> Class A: \$1,000,000 and more, Class B: \$200,000 to \$999,999, and Class C: Less than \$200,000. </div>	A B C	A B C
3. Included a monetary level for capitalizing versus expensing for all Classes as follows: <div style="margin-left: 40px;"> Class A: \$750 Class B: \$400 Class C: \$150 </div>	A B C	A B C
4. Added definitions, accounting instructions and subaccounts to provide for the accounting for regulatory assets and liabilities.	A B	A B
5. Added a new water plant account to separately account for backflow prevention devices.	A B C	
6. Added new wastewater plant accounts to separately account for reuse facilities used to produce reclaimed water.		A B
7. Added new wastewater expense accounts to separately account for the operation of reuse facilities to produce reclaimed water.		A B

<u>Proposed Changes</u>	<u>Water</u>	<u>Wastewater</u>
8. Added new wastewater revenue accounts to separately account for revenue from reclaimed water sales.		A B
9. Added a new water expense account to separately account for Water Conservation Expenses.	A B	
10. Requires the use of subaccounts to Accounts 271 - CIAC and 272 - Amortization of CIAC to separately account for any CIAC gross-up funds received by a utility. Also adds definitions for gross-up of CIAC.	A B C	A B C
11. Added a new account to separately account for revenues collected by a utility prior to service being initiated to guarantee or reserve plant capacity.	A B C	A B C
12. Added a new water expense account to separately account for water testing expenses.	A B C	
13. Removed confusing language in Account 218 - Proprietary Capital - which indicated that the system provided language concerning the use of earned surplus accounts, which it does not.	A B C	A B C
14. Added a new wastewater plant account to separately account for power generation equipment.		A B C
15. Added additional accounts for Contractual Services to separately account for billing and professional services.	C	C

ACCOUNTING INSTRUCTIONS

B. Interperiod Tax Allocation - Depreciation

The Federal Economic Recovery Tax Act of 1981 (ERTA).

ERTA provides that a utility claiming accelerated depreciation (Accelerated Cost Recovery System (ACRS)) must use a normalized method of accounting for federal income taxes on its regulated books of account and for ratemaking purposes. A utility must use the same depreciation method and lives in computing federal income tax expense when establishing cost of service for ratemaking purposes as is used in its regulated books of account, or if it uses a different method, it must make adjustments to a reserve to reflect the deferral of taxes resulting from such differences. Similarly, in order to claim investment tax credits, a utility must defer the entire balance of investment tax credits on its books of account and amortize the balance over the life of the related property.

C. Comprehensive Interperiod Income Tax Allocation - Other Than Depreciation.

1. Certain regulatory bodies have required comprehensive interperiod income tax allocation of all material book-tax timing differences other than depreciation differences. They have reasoned that where there are timing differences between the period in which transactions affect taxable income and the periods in which they enter into the determination of pretax accounting income, the income tax effects of such transactions are to be recognized in the periods in which the differences between book accounting income and taxable income arise and in the periods in which the differences reverse using the deferred tax method. In general, comprehensive interperiod tax allocation should be followed whenever transactions enter into the determination of pretax accounting income for the period even though some transactions may affect the determination of taxes payable in a different period, as further qualified below.
2. Utilities are not required to utilize comprehensive interperiod income tax allocation until the deferred income taxes are included as an expense in the rate level by the regulatory authority having rate jurisdiction over the utility. Where comprehensive interperiod tax allocation accounting is not practiced, the utility shall include as a note to each financial statement, prepared for public use, a footnote explanation setting forth the utility's accounting policies with respect to interperiod tax allocation and

ACCOUNTING INSTRUCTIONS

describing the treatment for ratemaking purposes of the tax timing difference by regulatory authorities having jurisdiction.

3. Should the utility be subject to more than one agency having rate jurisdiction, its accounts shall appropriately reflect the ratemaking treatment (deferral or flow through) of each jurisdiction.
4. Once comprehensive interperiod tax allocation has been initiated either in whole or in part it shall be practiced on a consistent basis and shall not be changed or discontinued without prior Commission approval.

ACCOUNTING INSTRUCTIONS

EXAMPLE

The following example shows how the various transactions are recorded:

- a. A utility purchases depreciable plant at a cost of \$10,000. The plant has a 10 year life with no salvage.
- b. The utility's federal taxable income from utility operations, before the effect of depreciation is \$30,000 (46% tax rate).
- c. ACRS depreciation for each year is \$800, \$1400, \$1200, \$1000, \$1000, \$1000, \$900, \$900, \$900, \$900.
- d. Book depreciation for each year using half year convention in year placed in service is: \$500, \$1000, \$1000, \$1000, \$1000, \$1000, \$1000, \$1000, \$1000, \$500.
- e. Investment tax credit is \$800 ($\$10,000 \times 8\%$) in order to use 100% of the \$10,000 cost for ACRS depreciation.
- f. Deferred taxes are calculated by subtracting tax depreciation from book depreciation and multiplying by the tax rate. If tax depreciation is greater than book, debit Account 410 and credit Account 282. If book depreciation is greater than tax, debit 282 and credit 410.

8. Operating Income - Clearing Accounts

A. The purpose of a clearing account is to temporarily accumulate in one account costs of a specific type which affect more than a single account, and which subsequently will be apportioned among utility plant accounts, operating expense accounts and other appropriate accounts.

B. The use of clearing accounts is optional. In addition to the payroll clearing account, a utility may use such additional clearing accounts as it finds useful.

BALANCE SHEET ACCOUNTS

Utility Plant

101. Utility Plant in Service

A. This account is the control account for plant accounts 301 through 348.

B. This account shall include the original cost of utility plant owned and used by the utility in providing water service.

103. Property Held for Future Uses

A. This account shall include the cost of property owned and held for future use in utility service under a definite plan for such use.

B. The property included in this account shall be classified according to the detailed accounts (301 to 348) for utility plant in service and the account shall be maintained in such manner and in such detail as though the property were in service.

Note:--Materials and supplies, and meters held in reserve shall not be included in this account.

104. Utility Plant Purchased or Sold

A. This account shall be temporarily charged with the cost and expense incidental to acquisition of utility systems acquired as operating units or systems. The account shall be temporarily credited with the selling price of utility systems transferred to others.

B. Within six months from the date of acquisition or sale of a water system the utility shall file with the Commission for approval proposed journal entries to clear this account.

Note:--In clearing this account the original cost of acquired plant shall be charged to plant accounts, and accumulated depreciation shall be credited to account 108 - Accumulated Depreciation and Amortization of Utility Plant in Service. Any balance (representing the difference between the net original cost of the assets acquired and the cost to the acquiring utility) shall be charged or credited to account 114 - Utility Plant Acquisition Adjustments.

C. When an existing water system or operating unit is acquired the utility shall be obligated to obtain from the vendor all existing records, including records of plant construction dates and costs, records of accumulated depreciation applicable to such properties, and records of Contributions in Aid of Construction.

BALANCE SHEET ACCOUNTS

105. Construction Work in Progress

This account shall include the cost of water plant in process of construction, but not ready for service.

108. Accumulated Depreciation and Amortization of Utility Plant in Service

A. This account shall reflect the depreciation and amortization accumulated on plant used in water utility service.

B. This account shall be credited with:

1. Amounts concurrently charged to account 403 - Depreciation Expense, representing currently accruing depreciation of water plant (other than contributed plant).
2. Amounts concurrently charged to account 407 - Amortization Expense - Other, representing currently accruing amortization of utility plant.
3. Amounts concurrently charged to account 272 - Accumulated Amortization of Contributions in Aid of Construction, representing amortization of contributed utility plant, if recognized by the Commission.
4. Salvage value, sales price, insurance settlements and other amounts recovered from plant retired.
5. Amounts representing the balance of accumulated depreciation and amortization of utility plant acquired from others.

Note:--Also see account 104 - Utility Plant Purchased or Sold.

C. This account shall be charged with:

1. Original cost of depreciable utility plant retired.
2. Cost of removal of plant retired.

D. The utility is restricted in the use of this account to the purposes set forth above. It shall not transfer any portion to retained earnings or to other accounts without prior written authorization from the Commission.

Note:--See Accounting Instruction 4 for information on depreciation accruals and plant retirement procedures.

BALANCE SHEET ACCOUNTS

114. Utility Plant Acquisition Adjustments

A. This account shall include the difference between (1) the cost to the utility of plant acquired as an operating unit or system by purchase, merger, or otherwise, and (2) the net of amounts distributed to the plant accounts, the accumulated depreciation account and other appropriate accounts.

B. No transfers shall be made from this account unless prior written authorization has been obtained from the Commission.

Note:--See also account 104 - Utility Plant Purchased or Sold.

115. Accumulated Amortization of Utility Plant Acquisition Adjustments

This account shall be credited or debited with amounts which are includible in account 406 - Amortization of Utility Plant Acquisition Adjustments, or account 426 - Miscellaneous Nonutility Expenses, for the purpose of providing for the extinguishment of amounts in account 114 - Utility Plant Acquisition Adjustments.

121. Nonutility Property

A. This account shall include all property and other assets owned by the utility, but not used in providing water service, for which separate balance sheet accounts have not been provided.

B. This account shall be appropriately subdivided.

Items

1. Land and buildings not used in water operations.
2. Utility assets transferred to "nonoperative" status.
3. Investments in securities.
4. Assets of nonutility businesses owned by the utility.
5. Accounts receivable and notes receivable not due within one year.

122. Accumulated Depreciation and Amortization of Nonutility Property

A. This account shall reflect the depreciation and amortization accumulated on property not used in utility operations.

B. This account shall be credited with amounts currently charged to account 426 - Miscellaneous Nonutility Expenses, representing currently accruing depreciation and amortization on property not used in utility operations.

C. This account shall be charged with the amount of depreciation accumulated on items of nonutility property sold, abandoned, or otherwise retired.

BALANCE SHEET ACCOUNTS

124. Utility Investments

This account shall include book cost of investments in securities issued or assumed by nonassociated companies for the purpose of insuring adequate water service (i.e., source of water supply).

131. Cash

This account shall include the amount of cash on hand or on deposit in banks.

132. Special Deposits

This account shall include deposits with fiscal agents or others for the payment of interest and/or dividends.

141. Customer Accounts Receivable

This account shall include amounts due from customers for utility service.

143. Accumulated Provision for Uncollectible Accounts--Cr

This account shall be credited with amounts provided for losses on accounts receivable which may become uncollectible, and also with collections on accounts previously charged hereto. Concurrent charges shall be made to account 670 - Bad Debt Expense, for amounts applicable to utility operations, and to corresponding accounts for other operations. Records shall be maintained so as to show the write-offs of accounts receivable for each utility department.

151. Plant Material and Supplies

A. This account shall include the cost of materials and supplies on hand, purchased for use in plant construction or repair work.

B. The cost shall include, when practicable, transportation charges, sales and use taxes and other directly assignable costs. Cash discounts realized on material purchases shall be credited to this account.

C. Reusable materials which are retired from plant and returned to the materials and supplies inventory shall be charged to this account and credited to account 108 - Accumulated Depreciation and Amortization of Utility Plant in Service. Identifiable units which have been removed from service (i.e., pumps, motors, etc.) shall be carried in inventory at original cost. Items of small value whose original cost cannot be readily determined shall be carried in inventory at current prices. Scrap materials shall be carried in inventory at estimated scrap value.

BALANCE SHEET ACCOUNTS

D. Inventories of materials and supplies shall be taken at least annually and the necessary adjustments shall be made to bring this account into agreement with the actual quantities on hand.

174. Miscellaneous Current and Accrued Assets

This account shall include the book cost of all other current and accrued assets, appropriately designated and supported so as to show the nature of each asset included herein.

186. Miscellaneous Deferred Debits

A. This account shall include such items as expenses of security issues, bond discount, items in suspense, and costs which the Commission has authorized the utility to amortize over future periods (i.e., deferred portion of rate case expense).

B. This account shall be appropriately subdivided.

190. Accumulated Deferred Income Taxes

A. This account shall be debited and account 411.10 - Provision for Deferred Income Taxes - Credit, Utility Operating Income, or account 411.20 - Provision for Deferred Income Taxes - Credit, Other Income and Deductions, as appropriate, shall be credited with an amount equal to that by which income taxes payable for the year are higher because of the inclusion of certain items in income for tax purposes, which items for general accounting purposes will not be fully reflected in the utility's determination of annual net income until subsequent years.

B. This account shall be credited and account 410.10 - Deferred Income Taxes, or account 410.20 - Provision for Deferred Income Taxes, Other Income and Deductions, as appropriate, shall be debited with an amount equal to that by which income taxes payable for the year are lower because of prior payment of taxes as provided by paragraph A above, because of differences in timing for tax purposes of particular items of income or income deductions from that recognized by the utility for general accounting purposes. Such credit to this account and debit to account 410.10 or 410.20 shall, in general, represent the effect on taxes payable in the current year of the smaller amount of book income recognized for tax purposes as compared to the amount recognized in the utility's current accounts with respect to the item or class of items for which deferred tax accounting by the utility was authorized by the Commission.

C. Vintage year records with respect to entries to this account, as described above, and the account balance, shall be so maintained as to show the factor of calculation with respect to each annual amount of the item or class of items for which deferred tax accounting by the utility is utilized.

BALANCE SHEET ACCOUNTS

D. The utility is restricted in its use of this account to the purpose set forth above. It shall not make use of the balance in this account or any portion thereof except as provided in the text of this account, without prior approval of the Commission. Any remaining deferred tax account balance with respect to an amount for any prior year's tax deferral, the amortization of which or other recognition in the utility's income accounts has been completed, or other disposition made shall be debited to account 410.10 - Deferred Income Taxes, or account 410.20 - Provision for Deferred Income Taxes - Other Income and Deductions, as appropriate, or otherwise disposed of as the Commission may authorize or direct (See Accounting Instruction 6).

Equity Capital

201. Common Stock Issued

A. This account shall be credited with the total par value or stated value of common stock outstanding.

B. Premiums related to the issue of common stock shall be carried in a separate subaccount of account 211 - Other Paid-In Capital.

204. Preferred Stock Issued

A. This account shall be credited with the total par value or stated value of preferred stock outstanding.

B. A separate subaccount shall be maintained for each class and series of preferred stock.

C. Premiums and discounts related to the issue of preferred stock shall be carried in a separate subaccount of account 211 - Other Paid-In Capital.

211. Other Paid-In Capital

A. This account shall include all paid-in capital not derived from earnings. It shall include such items as premiums and discounts related to the issuance of capital stock, donations to the utility of its capital stock, credits arising from the forgiveness of debt of the utility; credits arising out of a reorganization of the utility, or in connection with its recapitalization.

B. Each type of paid-in capital shall be carried in a separate subaccount.

BALANCE SHEET ACCOUNTS

215. Retained Earnings (for corporations only)

A. This account shall reflect corporation earnings retained in the business.

B. The account shall be credited with:

1. Net Income.
2. Accounting adjustments associated with correction of errors attributable to a prior period.

C. The account shall be charged with:

1. Net losses.
2. Accounting adjustments associated with correction of errors attributable to a prior period.
3. Dividends.

D. Adjustments caused by the correction of an estimate or a change in an accounting method shall not adjust the balance of this account but shall rather affect either an income, asset, liability or deferred credit account. For example, adjustments to accumulated depreciation shall not affect this account but rather shall affect an income account, account 186 - Miscellaneous Deferred Debits, or account 253 - Other Deferred Credits.

218. Proprietary Capital (for proprietorships and partnerships only)

A. This account shall be credited with the investment of a sole proprietor, or partners, in an unincorporated water utility.

B. Separate subaccount shall be maintained for each partner.

C. At the end of each calendar year the net income or loss for the year shall be entered in this account.

D. Accounting adjustments associated with correction of errors attributable to a prior period shall be charged or credited to this account. See also account 215, item D, above.

Note:--This account may be restricted to the amount considered by the proprietor to be the permanent investment in the business, subject to change only by additional investment by the proprietor or the withdrawal of portions thereof not representing net income. When this option is taken, earned surplus accounts shall be maintained.

BALANCE SHEET ACCOUNTS

Liabilities and Other Credits

224. Other Long-Term Debt

A. This account shall include all notes, conditional sales contracts or other evidences of indebtedness payable more than one year from date of issue.

B. Separate subaccounts shall be maintained for obligations outstanding.

231. Accounts Payable

This account shall include all amounts payable by the utility within one year, which are not provided for in other accounts.

232. Notes Payable

This account shall include the face value of all notes, drafts, acceptance, or other similar evidences of indebtedness, payable on demand or within a time not exceeding one year from date of issue.

235. Customer Deposits

This account shall include all amounts deposited with the utility by customers as security for the payment of bills.

236. Accrued Taxes

A. This account shall include all taxes accrued or payable by the utility including property taxes, payroll taxes, withholding taxes, and corporate taxes.

B. This account shall be credited during the accounting period with the amount of taxes accrued during the period. Such credits may be based upon estimates, but from time to time during the year, the amount of the periodic credits shall be adjusted so as to reflect the correct tax liability. Any amount representing a prepayment of taxes applicable to a period subsequent to the date of the balance sheet shall be shown under account 174 - Miscellaneous Current and Accrued Assets.

Note:--Liability for personal income or self-employment taxes of owner or partners shall not be entered in the books of the utility, although payment of such taxes may be charged as withdrawals to proprietary capital.

BALANCE SHEET ACCOUNTS

237. Accrued Interest

This account shall include the amount of interest accrued but not matured on all liabilities of the utility not including, however, interest which is added to the principal of the debt on which incurred. Supporting records shall be maintained so as to show the amount of interest accrued on each obligation.

241. Miscellaneous Current and Accrued Liabilities

This account shall include the amount of all other current and accrued liabilities not provided for elsewhere appropriately designated and supported so as to show the nature of each liability.

252. Advances for Construction

This account shall include advances by or in behalf of customers for construction which are to be refunded either wholly or in part. When a person is refunded the entire amount to which he is entitled according to the agreement or rule under which the advance was made, the balance, if any, remaining in this account shall be transferred to account 271 - Contributions in Aid of Construction.

253. Other Deferred Credits

This account shall include, gains on disposition of property, net of income taxes, deferred by authorization of the Commission, advance billings and receipts and other deferred credit items, not provided elsewhere, including amounts which cannot be entirely cleared or disposed of until additional information has been received.

255. Accumulated Deferred Investment Tax Credits

A. This account shall be credited with all investment tax credits deferred by companies which have elected to follow deferral accounting, partial or full, rather than recognizing in the income statement the total benefits of the tax credit as realized. After such election, a company may not transfer amounts from this account, except as authorized herein and in accounts 412.11 - Investment Tax Credits Restored to Operating Income, Utility Operations 412.20 - Investment Tax Credits - Net, Nonutility Operations, and account 412.30 - Investment Tax Credits Restored to Nonoperating Income, Utility Operations, or with approval of the Commission.

B. Where the company's accounting provides that investment tax credits are to be passed on to customers, this account shall be debited and account 412.11 credited with a proportionate amount determined in relation to the book depreciable life of all utility

BALANCE SHEET ACCOUNTS

property or utility property to which the tax credits relate or such lesser period of time as allowed by a regulatory agency having rate jurisdiction. If, however, the deferral procedure provides that investment tax credits are not passed on to customers, the proportionate restorations to income shall be credited to account 412.30.

C. Subdivisions of this account by department shall be maintained for deferred investment tax credits that are related to nonutility or other operations. Contra entries affecting such account subdivisions shall be appropriately recorded. Use of deferral or nondeferral accounting procedures adopted for nonutility or other operations are to be followed on a consistent basis.

D. Separate records for each utility department, and nonutility or other operations shall be maintained identifying the properties giving rise to the investment tax credits for each year with the appropriate service life of such properties and any unused balances of such credits. Such records are not necessary unless the tax credits are deferred.

265. Miscellaneous Operating Reserves

A. This account shall include all operating reserves maintained by the utility.

B. This account shall be maintained in such manner as to show the amount of each separate reserve and the nature and amounts of the debits and credits thereto.

271. Contributions in Aid of Construction

A. This account shall include:

1. Any amount or item of money, services or property received by a utility, from any person or governmental agency, any portion of which is provided at no cost to the utility, which represents an addition or transfer to the capital of the utility, and which is utilized to offset the acquisition, improvement or construction costs of the utility's property, facilities, or equipment used to provide utility services to the public.

2. Amounts transferred from account 252 - Advances for Construction, representing unrefunded balances of expired contracts or discounts resulting from termination of contracts in accordance with the Commission's rules and regulations.

3. Compensation received from governmental agencies and others for relocation of water mains or other plants.

BALANCE SHEET ACCOUNTS

4) Any amount of money received by a utility, any portion of which is provided at no cost to the utility, which represents an addition or transfer to the capital of the utility and which is utilized to offset the federal, state or local income tax effect of taxable contributions in aid of construction, taxable amounts transferred from Account 252 - Advances for Construction, and taxable compensation received from governmental agencies and others for relocation of water mains or other plants shall be reflected in a sub-account of this account.

B. The credits to this account shall not be transferred to any other account without the approval of the Commission.

C. The records supporting the entries to this account shall be so kept that the utility can furnish information as to the purpose of each donation, the conditions, if any, upon which it was made, the amount of donations from (a) states, (b) municipalities, (c) customers, and (d) others, and the amount applicable to each utility department.

Note:--There shall not be included in this account advances for construction which are ultimately to be repaid wholly or in part (See account 252 - Advances for Construction).

272. Accumulated Amortization of Contributions in Aid of Construction

A. This account shall reflect the amortization accumulated on account 271 - Contributions in Aid of Construction, if recognized by the Commission.

B. Specifically, balances in account 271 which represent contributions of depreciable plant shall be amortized by charges to this account over a period equal to the estimated service life of the related contributed asset. A group or overall composite rate may be used for contributed balances that cannot be directly related to a plant asset.

C. The concurrent credit for the amortization recorded in this account shall be made to account 403 - Depreciation Expense.

D. If a regulatory body allows the amortization of any portion of the monies collected to pay the tax obligation caused by the receipt of CIAC, such amortization shall also be reflected in a sub-account of this account. Specifically, balances in account 271 which represent monies collected for the gross-up of CIAC (See Definition 7.) shall be amortized by charges to this account over a period determined by the regulatory body.

BALANCE SHEET ACCOUNTS

Accumulated Deferred Income Taxes

Before using the deferred tax accounts provided below, refer to Accounting Instruction 7 (B) and (C). Interperiod Income Tax Allocation - Depreciation and Comprehensive Interperiod Income Tax Allocation - Other Than Depreciation.

Public utilities shall use the accounts provided below for prior accumulations of deferred taxes on income for additional provisions. Prior to any use of these accounts, the utility must file with the Commission, for the purpose of obtaining authorization, its proposed plan of accounting for deferred taxes on income. The utility shall not use these accounts unless such use has been authorized by the Commission. If deferred tax accounting is initiated with respect to any property such accounting shall not be discontinued on that property without prior approval of the Commission.

The utility is restricted in its use of these accounts to the purposes set forth therein. It shall not make any transfers from these accounts or make any use thereof except as provided in the text of the accounts without prior approval of the Commission. It shall not transfer the balance in these accounts or any portion thereof to retained earnings except as provided in the text of this account without prior approval of the Commission.

Upon the disposition by sale, exchange, transfer, abandonment, or premature retirement of plant on which there is a related balance in these accounts, the deferred tax account shall be debited with an amount equal to the related income tax expense, if any, arising from such disposition and account 411 - Provision for Deferred Income Taxes-Credit, shall be credited. When the remaining balance, after consideration of any related income tax expenses, is not significant, the deferred tax account shall be debited and account 411 credited with such balance. If after consideration of any related income tax expense, and the remaining amount is significant, then the Commission shall authorize or direct how such amount shall be accounted for at the time approval for the disposition of account is granted. When plant is disposed of by transfer to a wholly owned subsidiary, the related balance in the deferred tax account shall also be transferred. When the disposition relates to retirement of an item or items under a group method of depreciation where there is no tax effect in the year of retirement, no entries are required in the deferred tax account if it can be determined that the related balances would be necessary to be retained to offset future group item tax deficiencies.

Note:--Public utilities having more than one utility department and/or nonutility property and which have deferred taxes on income with respect thereto shall classify such deferrals in the accounts provided elsewhere so as to allow ready identification of items

BALANCE SHEET ACCOUNTS

relating to each utility department and to Other Income and Deductions.

281. Accumulated Deferred Income Taxes - Accelerated Amortization

A. This account shall include tax deferral resulting from adoption of the principles of Comprehensive Interperiod Income Tax Allocation - Other Than Depreciation described in Accounting Instruction 6 (c) of this system of accounts that relate to property for which the utility have availed itself of the use of accelerated (5-year) amortization of (1) certified defense facilities as permitted by Section 168 of the Internal Revenue Code and (2) certified pollution control facilities as permitted by Section 169 of the Internal Revenue Code.

B. This account shall be credited and accounts 410.10 - Deferred Income Taxes, or account 410.20 - Provision for Deferred Income Taxes, Other Income and Deductions, as appropriate, shall be debited with tax effects related to property described in paragraph A above where taxable income is lower than pretax accounting income due to differences between the periods in which revenues and expense transactions affect taxable income and the periods in which they enter into the determination of pretax accounting income.

C. This account shall be debited and accounts 411.10 - Provision for Deferred Income Taxes - Credit, Utility Operating Income, or 411.20 - Provision for Deferred Income Taxes-Credit, Other Income and Deductions, as appropriate, shall be credited with tax effects related to property described in paragraph A above where taxable income is higher than pretax accounting income due to differences between the periods in which revenues and expenses transactions affect taxable income and the periods in which they enter into the determination of pretax accounting income.

D. Records with respect to entries to this account, as described above, and the account balance, shall be so maintained as to show the factors of calculation and the separate amounts applicable to the plant additions of each vintage year for each class, group, or unit. The underlying calculations to segregate and associate deferred tax amounts with the respective vintage years may be based on reasonable methods of approximation, if necessary, consistently applied.

282. Accumulated Deferred Income Taxes - Liberalized Depreciation

A. This account shall include all credit tax deferrals resulting from adoption of the principles of comprehensive interperiod income tax allocation described in Accounting Instruction 7 of this system of accounts other than those deferrals which are included in accounts 281 - Accumulated Deferred Income Taxes - Accelerated Amortization, and account 283 - Accumulated Deferred Income Taxes - Other.

BALANCE SHEET ACCOUNTS

B. This account shall be credited and accounts 410.10 - Deferred Income Taxes, or 410.20 - Provision for Deferred Income Taxes, Other Income and Deductions, as appropriate, shall be debited with tax effects related to property described in paragraph A above where taxable income is lower than pretax accounting income due to differences between the periods in which revenue and expense transactions affect taxable income and the periods in which they enter into the determination of pretax accounting income.

C. This account shall be debited and accounts 411.10 - Provision for Deferred Income Taxes - Credit, Utility Operating Income, or 411.20 - Provision for Deferred Income Taxes - Credit, Other Income and Deductions, as appropriate, shall be credited with tax effects related to property described in paragraph A above where taxable income is higher than pretax accounting income due to differences between the periods in which revenue and expense transactions affect taxable income and the periods in which they enter into the determination of pretax accounting income.

D. Records with respect to entries to this account, as described above, and the account balance, shall be so maintained as to show the factors of calculation and the separate amounts applicable to the plant additions of each vintage year for each class, group, or unit. The underlying calculations to segregate and associate deferred tax accounts with the respective vintage years may be based on reasonable methods of approximation, if necessary, consistently applied.

283. Accumulated Deferred Income Taxes - Other

A. This account shall include all credit tax deferrals resulting from the adoption of the principles of comprehensive interperiod income tax allocation described in Accounting Instruction 7 of this system of accounts other than those deferrals which are includible in accounts 281 - Accumulated Deferred Income Taxes - Accelerated Amortization, and 282 - Accumulated Deferred Income Taxes - Liberalized Depreciation.

B. This account shall be credited and account 410 - Provision for Deferred Income Taxes, shall be debited with tax effects related to items described in paragraph A above where taxable income is lower than pretax accounting income due to differences between the periods in which revenue and expense transactions affect taxable income and the periods in which they enter into the determination of pretax accounting income.

C. This account shall be debited and accounts 411.10 - Provision for Deferred Income Taxes - Credit, Utility Operating Income or 411.20 - Provision for Deferred Income Taxes - Credit, Other Income and Deductions, as appropriate, shall be credited with tax effects related to items described in paragraph A above where taxable income is higher than pretax accounting income due to differences

BALANCE SHEET ACCOUNTS

between the periods in which revenues and expense transactions affect taxable income and the periods in which they enter into the determination of pretax accounting income.

D. Records with respect to entries to this account, as described above, and the account balance, shall be so maintained as to show the factors of calculation with respect to each annual amount of the item or class of items.

E. For ratemaking purposes, the balance in accounts 281, 282, and 283 - Accumulated Deferred Income Taxes - Accelerated Amortization, Liberalized Depreciation, and Other, net of any balance in account 190 - Accumulated Deferred Income Taxes, shall either be deducted from rate base by all companies having a net credit balance of deferred taxes or shall be included in capital structure as zero cost funds. The treatment shall be determined by the regulatory body having jurisdiction over the regulated operations of the utility. Where regulated operations are subject to the jurisdiction of more than one regulatory body, each regulatory body shall establish the ratemaking treatment of those deferrals related to operations under its jurisdiction.

INCOME ACCOUNTS

Operating Income

400. Operating Revenues

This is the revenue control account which totals the accounts credited to revenue accounts 460 through 474 for water systems.

401. Operating Expenses

This is the operating expense control account which totals the amounts charged to operating expense accounts 601 through 675 for water systems.

403. Depreciation Expenses

A. This account shall be charged with depreciation credited to account 108 - Accumulated Depreciation and Amortization of Utility Plant In Service and credited with amortization debited to account 272 - Accumulated Amortization of Contributions in Aid of Construction. Depreciation shall be accrued on a straight-line remaining life basis or straight-line basis, as required by the Commission. A single composite depreciation rate may be used if approval from the Commission is obtained.

Note A:--See Accounting Instruction 4, for more detailed instructions on depreciation accounting.

B. Depreciation for property not used in water operations is charged to account 426 - Miscellaneous Nonutility Expense, and is credited to account 122 - Accumulated Depreciation and Amortization of Nonutility Property.

406. Amortization of Utility Plant Acquisition Adjustments

This account shall be debited or credited, as the case may be, only upon the approval of the governing regulatory authority, for the purpose of providing for the extinguishment of the amount in account 114 - Utility Plant Acquisition Adjustments.

407. Amortization Expense - Other

This account shall include amortization debits or credits, which relate to utility operations and are not provided for elsewhere.

408. Taxes Other Than Income

A. These accounts shall include the amount of ad valorem, gross revenue or gross receipts taxes, regulatory agency general assessments for purposes of public utility regulation, state unemployment insurance, franchise taxes, federal excise taxes,

INCOME ACCOUNTS

social security taxes, and all other taxes assessed by federal, state, county, municipal, or other local governmental authorities, except income taxes.

B. These accounts shall be charged in each accounting period with the amounts of taxes which are applicable thereto, with concurrent credits to account 236 - Accrued Taxes, or account 174 - Miscellaneous Current and Accrued Assets, as appropriate. When it is not possible to determine the exact amounts of taxes, the amounts shall be estimated and adjustments made in current accruals as the actual tax levies become known.

C. The charges to these accounts shall be made or supported so as to show the amount of each tax and the basis upon which each charge is made. In the case of a utility rendering more than one utility service, taxes of the kind includible in these accounts shall be assigned directly to the utility department the operation of which gave rise to the tax in so far as practicable. Where the tax is not attributable to a specific utility department, it shall be distributed among the utility departments or nonutility operations on an equitable basis after appropriate study to determine such basis.

Note A:--Special assessments for street and similar improvements shall be included in the appropriate utility plant or nonutility property account.

Note B:--Taxes specifically applicable to construction shall be included in the cost of construction.

Note C:--Gasoline and other sales taxes shall be charged as far as practicable to the same account as the materials on which the tax is levied.

Note D:--Social security and other forms of payroll taxes shall be distributed to utility departments and to nonutility functions on a basis related to payroll. Amounts applicable to construction shall be charged to the appropriate plant account.

Note E:--Interest on tax refunds or deficiencies shall not be included in these accounts but in account 419 - Interest and Dividend Income, or 427 - Interest Expense.

409. Income Taxes

A. These accounts shall include the amounts of local, state and federal income taxes on income properly accruable during the period covered by the income statement to meet the actual liability for such taxes. Concurrent credits for the tax accruals shall be made to account 236 - Accrued Taxes, and as the exact amounts of taxes become known, the current tax accruals shall be adjusted by charges

INCOME ACCOUNTS

or credits to these accounts unless such adjustments are properly included in account 215 - Retained Earnings, so that these accounts as nearly as can be ascertained shall include the actual taxes payable by the utility.

B. The accruals for local, state and federal income taxes shall be apportioned to Utility Operating Income (by department/division), Other Income and Deductions and Extraordinary Items so that, as nearly as practicable, each tax included in the expenses of the utility department, Other Income and Deductions or Extraordinary Items, shall be related to the income which gave rise to the tax. The income tax effect of amounts recorded in account 215 - Retained Earnings, shall be recorded in that account. The tax effects relating to interest charges, other than interest specifically applicable to indebtedness on property in account 121 shall be included in account 409.10 - Income Taxes, Utility Operating Income.

C. This account shall be maintained according to the subaccounts 409.10 and 409.20, as shown below.

Note A:--Taxes assumed by the utility on interest shall be charged to account 427 - Interest Expense.

Note B:--Interest on tax refunds or deficiencies shall not be included in this account but in account 419 - Interest and Dividend Income, or account 427 - Interest Expense, as appropriate.

Note C:--See Accounting Instruction 7.

409.10 Income Taxes, Utility Operating Income

This account shall include the amount of those federal, state, and local income taxes reflected in account 409 - Income Taxes, which relate to utility operating income after interest charges and other tax adjustments. This account shall be maintained so as to allow ready identification of tax effects (both positive and negative) relating to Utility Operating Income (by department/division), Utility Plant Leased to Others and Other Utility Operating Income.

409.20 Income Taxes, Other Income and Deductions

This account shall include those local, state, and federal income taxes reflected in account 409 - Income Taxes, (both positive and negative), which relate to Other Income and Deductions.

410. Provision for Deferred Income Taxes

A. Accounts 410.10, and 410.20 shall be debited and accounts 281, 282, or 283 Accumulated Deferred Income Taxes - Accelerated

INCOME ACCOUNTS

Amortization, Liberalized Depreciation, or Other, shall be credited with amounts equal to any current deferrals of taxes on income or any allocations of deferred taxes originating in prior periods, as provided by the texts of accounts 190, 281, 282, and 283. No credit amounts appropriately includible in account 411.10 or 411.20 shall be netted against entries required to be made to these accounts.

B. This account shall be maintained according to the subaccounts 410.10, and 410.20 inclusive, as shown below.

Note:--See Accounting Instruction 7.

410.10 Deferred Income Taxes

This account shall include the amounts of those deferrals of federal, state, and local income taxes and allocations of deferred federal income taxes which relate to Utility Operating Income (by department/division).

410.20 Provision for Deferred Income Taxes, Other Income and Deductions

This account shall include the amount of those deferred federal, state and local income taxes reflected in account 410 - Provision for Deferred Income Taxes, which relate to Other Income and Deductions.

411. Provision for Deferred Income Taxes - Credit

A. Accounts 411.10 and 412.20 shall be credited, and accounts 281, 282, or 283, Accumulated Deferred Income Taxes - Accelerated Amortization, Liberalized Depreciation or Other, shall be debited, with amounts equal to any allocations of deferred taxes originating in prior periods or any current deferrals of taxes on income, as provided by the texts of accounts 190, 281, 282, and 283. No debit amounts appropriately includible in account 410.10, or 410.20 shall be netted against entries required to be made to these accounts.

411.10 Provision For Deferred Income Taxes - Credit, Utility, Operating Income

This account shall include the amounts of those allocations of deferred federal, state and local income taxes and deferrals of federal, state and local income taxes, credit which relate to Utility Operating Income (by department/division).

INCOME ACCOUNTS

411.20 Provision For Deferred Income Taxes - Credit, Other Income and Deductions

This account shall include the amounts of those allocations of deferred taxes and deferrals of taxes, credit, which relate to Other Income and Deductions.

412. Investment Tax Credits

A. This account shall be debited with the total amount of investment tax credits used in calculating the reported current year's income taxes payable.

Account 255 - Accumulated Deferred Investment Tax Credits, shall be credited with an equal amount of investment tax credits debited to this account. Investment tax credits related to property used in utility operations shall be debited to subaccount 412.10 - Investment Tax Credits Deferred to Future Periods, Utility Operations. Those investment tax credits related to property used in nonutility operations shall be debited to account 412.20 - Investment Tax Credits - Net, Nonutility Operations.

B. A company which has deferred its investment tax credits shall amortize these deferred credit amounts by crediting this account and debiting account 255 - Accumulated Deferred Investment Tax credits. Such annual amortization shall be allocated proportionately over the service lives of all assets or of the assets generating the credits. The proportional amounts shall be determined in relation to the method of depreciation actually used on the regulated books of account.

(1) In amortizing the deferred investment tax credits related to property used in utility operations, the annual proportional amount credited to account 412 - Investment Tax Credits may or may not be passed on to customers in accordance with the Internal Revenue Code section applicable to the company. Where the company is subject to Section 46 (f)(2) of the code which provides a "Special rule for ratable flow-through" or Option 2 treatment, the annual proportional amortization is to be credited to subaccount 412.11 - Investment Tax Credits Restored to Operating Income, Utility Operations. Where the company is subject to Code Section 46 (f)(1), which is the "General Rule" or Option 1 treatment, the annual proportional amortization shall be credited to subaccount 412.30 - Investment Tax Credits Restored to Nonoperating Income, Utility Operations.

(2) In amortizing the deferred investment tax credits related to property used in nonutility operations, the annual amount shall be credited to subaccount 412.20, Investment Tax Credits - Net, Nonutility Operations.

INCOME ACCOUNTS

C. This account shall be maintained so that the debits and credits relating to each allowable percentage of credit, i.e., 3%, 4%, 6%, 7%, 8%, 10%, etc., may be readily identified.

D. This account shall be maintained so that the debits and credits relating to each utility department/division and each nonutility operation may be readily identified.

E. This account shall be maintained according to subaccounts 412.10, 412.11, 412.20 and 412.30 as shown below.

412.10 Investment Tax Credits Deferred to Future Periods, Utility Operations

This account shall be debited and account 255 - Accumulated Deferred Investment Tax Credits, shall be credited with the amounts of realized investment tax credits deferred to future periods related to property used in utility operations (department/division).

412.11 Investment Tax Credits Restored to Operating Income, Utility Operations

This account shall be credited and account 255 - Accumulated Deferred Investment Tax Credits, shall be debited with the proportionate amounts of deferred investment tax credits related to property used in utility operations being restored to operating income in accordance with the "Special Rule for Ratable Flow-through" or Option 2 treatment as provided in the Revenue Act of 1971, the Tax Reduction Act of 1975 or the Economic Recovery Tax Act of 1981.

412.20 Investment Tax Credits - Net, Nonutility Operations

A. This account shall be debited and account 255 - Accumulated Deferred Investment Tax Credits, shall be credited with the amounts of realized investment tax credits deferred to future periods which relate to property used in nonutility operations.

B. This account shall be credited and account 255 - Accumulated Deferred Investment Tax Credits shall be debited with the proportionate amounts of deferred investment tax credits related to property used in nonutility operations being restored to nonoperating income.

INCOME ACCOUNTS

412.30 Investment Tax Credits Restored to Nonoperating Income, Utility Operations

This account shall be credited and account 255 - Accumulated Deferred Investment Tax Credits shall be debited with the proportionate amounts of deferred investment tax credits related to property used in utility operations being restored to nonoperating income in accordance with the "General Rule" or Option 1 as provided by the Revenue Act of 1971, the Tax Reduction Act of 1975 and the Economic Recovery Tax Act of 1981.

Other Income and Deductions

419. Interest and Dividend Income

This account shall include interest revenues on securities, loans, notes, advances, special deposits, tax refunds and all other interest bearing assets and dividends on stocks of other companies, whether the securities are carried as investments or included in sinking or other special funds accounts.

420. Allowance for Funds Used During Construction

This account shall include concurrent credits for allowance for funds used during construction based upon the net cost of funds used for construction purposes and a reasonable rate upon other funds when so used. Appropriate regulatory approval shall be obtained for "a reasonable rate".

421. Nonutility Income

In this account is entered all income not includible in operating revenue accounts 460 through 474 or in account 419 - Interest and Dividend Income. Items in this account shall include:

1. Gross income from nonutility operations;
2. Net gain on sale of nonutility property; and
3. Revenues from merchandising, jobbing and contract work.
