On June 29, 2023, Rocky Mountain Power, a division of PacifiCorp, (“Company”) requested that Idaho Public Utilities Commission (“Commission”) approve the study review phase of the costs and benefits for on-site customer generation.¹ The Company attached its on-site generation study and requested a timeline for processing the case as well as a finding that the study’s scope satisfied Order No. 34753.

On July 31, 2023, the Commission issued a Notice of Application and Notice of Intervention Deadline. Order No. 35870. The Idaho Irrigation Pumpers Association, Inc. intervened. Order No. 35884.

After lengthy discussions with Staff, the Company submitted additional filings on February 8, 2024. These filings revised the Company’s study and appendices to make them more accessible to the public. These filings separate the results from the calculations included in the study so the results are no longer redacted—thus increasing the transparency of the Company’s filings.

The Commission now issues a Notice of Modified Procedure, Notice of Virtual Public Workshop, and Notice of Customer Hearing.
