- (D) To signify discontinued material, including listing, rate, rule or condition.
- (I) To signify an increase in a rate.
- (M) To signify material relocated from or to another part of Price List schedule with no change in text, rate, rule, or condition.

PRICE LIST FORMAT

- A. Page Numbering - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new Pages are occasionally added to the Price List. When a new Page is added between Pages already in effect, a decimal point is added. For example, a new Page added between Pages 14 and 15 would be 14.1.
- B. Page Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current Page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. Because of various suspension periods, deferrals, etc. the Commission follows in their Price List approval process, the most current Page number on file with the Commission is not always the Price List page in effect.
