- Supplemental Security Income (SSI)
- Federal Public Housing Assistance (Section 8)
- Low-Income Home Energy Assistance Program (LIHEAP)
- Temporary Assistance to Needy Families (TANF)
- National School Lunch Program's Free Lunch Program
- If your income exceeds 135% FPG and you are a participant in one of these programs, you must apply for Lifeline directly with your local telephone company.

Is telephone assistance available for cellular (wireless) service?

Some cellular companies offer telephone assistance discounts. See the list of Eligible Telecommunication Carriers (<http://www.puc.idaho.gov/telecom/etc%20list.PDF>) on the Commission's website. If you already receive assistance for landline service, you cannot receive an additional discount for cellular service. Some cellular companies only participate in the Federal Lifeline Program. Customers of those companies are not eligible to receive the ITSAP (state) discount and must apply directly to the cellular company for Lifeline (federal) assistance.

What if I live on tribal lands?

Under programs established by the Federal Communications Commission, a customer living on tribal lands may be eligible for additional federal financial assistance for local telephone service. Assistance is also available for the cost of setting up new telephone service. Contact your tribal office or your local Community Action Partnership office for more information.

More information about ITSAP

The Idaho Telephone Assistance Program (ITSAP) provides a communication "lifeline" to those who might not otherwise be able to afford telephone service. It also enhances the value of service for everyone by increasing the number of people who can be reached by telephone. A small surcharge is applied to every Idaho telephone line each month to reimburse local telephone companies for the cost of state discounts under ITSAP. The surcharge is waived for customers receiving the ITSAP discount. The Idaho Public Utilities Commission (IPUC) reviews the surcharge annually and may increase or decrease the surcharge.
