2.5 Allowances for Interruptions in Service

2.5.1 Credit for Interruptions

When the use of service or facilities furnished by the Company is interrupted due to any cause other than the negligence or willful act of the Customer, or the operation or failure of the facilities or equipment provided by the Customer; subject to ID PUC Rule 503, a pro rata adjustment of the monthly recurring charges subject to interruption will be allowed for the service and facilities rendered useless and inoperative by reason of the interruption, whenever said interruption continues for a period of 24 hours or more from the time the interruption is reported to or known to exist by the Company. If the Customer reports a service, facility or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.

For calculating credit allowances, every month is considered to have 30 days. A credit allowance is applied on pro-rata basis against the rates specified hereunder for Local Line or Local Trunk Service and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit. Credit allowances for service outages that exceed 24 hours in duration will be rounded up to the next whole 24 hours. If the Company does not restore service within the times required by Rule 503, the Company will credit the Customer's account for an amount equal to the monthly rate for one month of basic local exchange service.

2.5.2 <u>Limitations on Allowances</u> No credit allowance will be made for:

- (c) interruptions of service during a period in which the Customer continues to use the service on an impaired basis;
- (d) interruptions of service during any period when the Customer has released service to the Company for maintenance purposes or for implementation of a Customer order for a change in service arrangements;

2.5.3 <u>Use of Alternative Service Provided by the Company</u>
