**6. Action Item: Jeffrey R. Loll's March 3, 2026, Decision Memorandum re: In the Matter of Idaho Power Company's Application for Approval of the 2032 All-Source Request for Proposals; Case No. IPC-E-26-03.**

Mr. Loll presented the memorandum regarding Idaho Power Company's application for approval of its 2032 All-Source Request for Proposals. This filing represents the first submission under the Commission's newly implemented solicitation procedures.

Staff noted that, in prior guidance, they had encouraged the company to provide as much lead time as possible for the bidding period. To support timely issuance of the RFP, staff recommended proceeding under Modified Procedure with an April 8 public comment deadline and an April 15 company reply deadline. Idaho Power requested a Commission order by April 24 to allow issuance of the RFP on April 27. During discussion, staff expressed concern about further compressing the schedule due to existing commitments among personnel responsible for discovery and comment preparation. Idaho Power indicated flexibility but acknowledged that staff constraints may limit the feasibility of earlier deadlines.

Commissioners emphasized the value of including a cross-reply period to enhance the record and recognized the time-sensitive nature of the company's request. The Commission agreed it could meet to deliberate in a timely manner to accommodate the requested effective date.

Commissioner Hammond made a motion to issue a Notice of Application establishing the following schedule: Public comments due April 8, 2026, Cross-reply comments due April 13, 2026, and Idaho Power's reply comments due April 15, 2026. A vote was taken on the motion, and it carried unanimously.

Commissioner Hammond stated there was no further business before the Commission and the meeting was adjourned.
