Dear Secretary of the Commission:

Due to my work schedule, I have just now returned to town. Your timeline was short (less than 30 days) for the Atlanta Power (AP) customers) to respond to your "Notice of Proposed Order and Notice of Comment Deadline re: CASE # ATL-03-1.

I am a long-time AP customer and am responding as soon as I returned to town. This response is allowed because the townspeople's response reserved the right for townspeople "to amend and plea further."

I am in full agreement with the April 26, 2003 formal response signed by other AP customers and citizens of Atlanta. I am also supportive of the two addendums that were subsequently filed.

I am faxing this in today so that it is inserted into your records in the most timely way possible. Please confirm that you receive it by sending a message "To Johnny Inama" in care of:

If you need an original signature vs. just a fax signature, please let me know.

Sincerely,
