

5. Discussions are taking place regarding the appraisal of Atlanta Power for the purposes of a sale. For example, whom should prepare the appraisal, and how the cost should be shared between the parties. However, these details have yet to be finalized.

6. Co-op has yet to receive any financial documents from Atlanta Power, however, it appears that Atlanta Power is working to provide the Co-op with some documents.

7. In order for a sale to be consummated it would be beneficial and necessary for the Co-op to be provided with annual verified returns showing Atlanta Powers' gross operating revenues for 2016, 2017 and 2018.

8. I would request that Atlanta Power be required to provide the IPUC with its gross operating revenues for 2016, 2017 and 2018 as required by statute in the next 30 days.

9. If the sale were to be consummated, it would not be beneficial for the Co-op to have inherit a debt of \$12,000.00 due and owing to the IPUC for Atlanta Power's failure to comply with its statutory obligations.

10. If the sale were to be consummated, it would not be beneficial for the Co-op to have to inherit any penalties associated with the debt of \$12,000.00 currently due and owing to the IPUC or any other penalties that may be imposed upon the Co-op for Atlanta Power's failure to comply with its statutory obligations.

11. Therefore, I would urge the IPUC to suspend this matter for a period of six months while the Co-op and Atlanta Power work out the terms of a sale.

12. I would also urge the IPUC to suspend consideration of the imposition of fines and any penalties associated with the fines and/or Atlanta Powers failure to comply with the statutory requirements, for a period of six months while the Co-op and Atlanta Power work out the terms of a sale

STATE OF IDAHO
