Address: 224 Mine Hill Rd
Atlanta Idaho, 83601

Name of Utility Company: Atlanta Power

Comment: I would like to add to Mary Drakes complaint about Atlanta Power. A year ago December the owner could not provide fuel for the generator. Because of his lack of planning or caring he forced Atlanta Highway District to sell fuel to him for town power, we also need a road to travel on and what a tough choice to make, power or roads. The owner did purchase some fuel from Idaho City and did not pay for it, therefore if we need some fuel this spring the company will not deliver to us. If the town should need fuel, we will simply pool our money and pay cash on delivery, AND NOT PAY our monthly power bills. Yes, that's the plan. Also the town locals are taking care of the maintenance. They get \$12.50 per hour off their power bill for this work. I don't know if that's legal. The work is hard, dangerous and that rate of compensation is way too low. The owner needs to hire someone to take care of this and become present. This neglect needs to end.
