RE: Avista Utilities 2020 Annual Report on Optional Alternative Renewable Energy

Dear Ms. Noriyuki:

Pursuant to Order No. 28948 in Case No. AVU-E-01-16, enclosed for filing is Avista Corporation's dba Avista Utilities ("Avista" or "the Company") report on alternative energy resources offered as options to customers in 2020 under Schedule 95—Optional Renewable Power Rate. Avista Utilities' voluntary program, marketed as the "Buck-A-Block" program, for renewable resources was initiated on February 1, 2002 and renamed to "My Clean Energy" through Order 34566, approved by the Commission on March 2nd, 2020.

The My Clean Energy program is available to all residential and commercial electric customers in both Idaho and Washington. The voluntary program offers a National Block Option for 300 kWh at \$1.00 each where Renewable Energy Certificates (RECs) are sourced nationally for a more economic customer option. The Company is now offering a Regional Block Option for 100 kWh at \$1.00 each; RECs for the regional option are sourced from within the Northwest. Customers may purchase as many blocks as they would like, which they then pay for in addition to their regular monthly bill. Customers subscribe on a monthly basis and can cancel and re-subscribe at any time by either phone, the Company's website, or bill inserts. Avista purchases and retires renewable energy certificates to supply the program. The Company markets the

IDaho PUBLIC UTILITIES COMMISSION

program through billing inserts, earned media, local public radio, selected fairs, solar grants and print media.

Attachment A shows the rate of customer participation for each block option, the amount of qualified renewable energy resources purchased by customers and the amount of utility investments in qualified renewable energy resources. With the Commission approval of the new product option on March 2nd, 2020, Idaho block purchases for January 1 through February 28 are accounted for in the Regional block option and were sold under the original rate of 300 kWh per \$1 and regional RECs were procured.

Please direct questions on this matter to me at (509) 495-2782 or Lisa Garrett at (509) 495-7994.

Sincerely,

/s/ Shawn Bonfield
