A Comment from Marcella Harrison follows:

Case Number: AVU-E-07-01
Name: Marcella Harrison
Address: 1992 Shawna Avenue
City: Coeur d'Alene
State: ID
Zip: 83815
Home Telephone: 208-666-1968
Contact E-Mail: marcyda@hotmail.com
Name of Utility Company: Avista
Add to Mailing List: yes

Please describe your question or comment briefly:

I do not believe that Avista should be granted an extension of the monthly surcharge which is due to expire June 30. And I certainly do not think they should be granted an increase. I read the articles regarding the bonuses their top executives received and if Avista needs better cash flow, they should look in-house, not to consumers.

Thank you.

Please describe your question or comment briefly:

I received my bill and the Avista news letter telling me that they are going for another rate increase for electricity. I am opposed to the increase as Avista has increased rates five or six times over the past few years. I understand the increased cost of doing things but if I did this in my business I would be out of business and since this is a needed product I believe they are taking advantage of this. I have spent thousands of dollars to increase the efficiency of my home but was told by Avista that this would not decrease the amount of my bill as they were going to make the same amount of money no matter what anyone did but that my cause should be one for the environment not to save money. I believe that they have not managed the electricity as well as they could have, ie. selling off excess to other states then purchasing power from other states to supply us. It just makes no sense no matter what their bragging of taking care of the environment commercials say. I believe we are living in a time when large corporations frame of mind are if they will pay it we will charge it.... and that is just not right.

A concerned citizen
