RE: AVU_E_21-15 Avista Utilities “My Clean Energy Program” Schedule 95

Dear Ms. Noriyuki,

Avista Corporation, doing business as Avista Utilities’, hereby files its modified Schedule 95 in compliance with order No. 35282 in Case No. AVU-E-21-15 pertaining to the Company’s My Clean Energy Program.

Sincerely,

/s/ Shawn Bonfield

SCHEDULE 95

MY CLEAN ENERGY PROGRAM – IDAHO

AVAILABLE

To Customers in the State of Idaho where the Company has electric service. Customers may participate in one or more available Renewable Energy Credit (REC) program options.

APPLICABLE

To all customers receiving electric service who agree to purchase blocks of renewable power under this schedule.

PROGRAM OPTIONS AND CHARGES:

Clean Energy program options available to customers will utilize the types of qualifying resources including wind, solar and biomass, but may also come from other renewable resources. Program option available to Idaho customers will include, but are not limited to the following:

National Block Option - One (1) block is equal to 100 kWh of renewable power from a National source located anywhere in the United States. Each block is priced at \$1.00 per block, per month.

Regional Block Option - One (1) block is equal to 100 kWh of renewable power from a Regional source located in the Western Interconnection (WECC), with preference given to the northwest region including WA, ID, OR, CA, MT, and BC. Each block is priced at \$1.30 per block, per month.

100% Renewable Option - One (1) kWh of renewable power from a Regional source located in the Western Interconnection (WECC), with preference given to the northwest region including WA, ID, OR, CA, MT, and BC will offset every kWh used at customer selected meter. Each kWh is priced at \$0.013/ per kWh and the amount of kWhs purchased will vary each month to match the customers actual kWh usage.

All program charges shall be in addition to all other charges contained in the customer’s applicable tariff schedule.

MONTHLY BILLING

National and Regional block options - The monthly billing shall be the number of Blocks the customer has agreed to purchase multiplied by the Charge per Block. The Monthly Billing is in addition to all other charges contained in customer’s applicable tariff schedule. This schedule’s Monthly Billing shall be applied to the customer’s billing regardless of actual energy consumption.

Issued January 03, 2022

Effective January 01, 2022

SCHEDULE 95 – Continued

100% Renewable Option - The monthly billing shall be based on the customer’s actual electric usage at the meter selected by the customer. For every kWh of electricity used, the customer will be charged \$0.013/kWh premium for renewable power. The Monthly Billing is in addition to all other charges contained in the customer’s applicable tariff schedule.

RENEWABLE POWER

For the purpose of this schedule, the renewable power sourced through renewable energy certificates (RECs) shall be recognized via the Western Renewable Energy Generation Information System (WREGIS) tracking system or another REC tracking system of record with preference toward Green-e certified and primarily from these sources: Wind and solar power, but may also come from other renewable resources.

PROGRAM ADMINISTRATION:

To ensure that all costs and benefits of this program are only applied to program participants, all funds collected and spent under this Schedule will be separately identified and tracked. Funds received from Customers under this Schedule will be used to cover program costs (e.g.: program management, accounting, communications, etc.) as well as to match block subscriptions to REC purchases.

RENEWABLE ENERGY PROJECTS/GRANTS:

In an effort to promote and build awareness of renewable energy generation options, if available, funds collected, but not otherwise required to meet program obligations may be distributed for one or more of the following renewable projects:

1. Funding for locally-owned, non-residential solar projects. Applicable customers, with a preference for community-based projects that provide for educational and environmental benefit to local communities, or otherwise receive service under this Schedule, may apply for a grant to cover all or a portion of the cost of installation.
2. Funding for research and development projects that encourage Renewable Energy market transformation in order to accelerate marketability of Renewable Energy technologies.
3. Funding for above-market costs associated with the new construction of Renewable Energy facilities or the purchase by contract of Renewable Energy that reduces the costs of Renewable Energy to be competitive with cost-effective resources.

Eligible renewable energy projects would not be considered for purposes of any Renewable Portfolio Standard requirements. Renewable energy that is generated in response to any federal or state statutory requirement to construct or contract for the renewable energy is not eligible for the funding under this Schedule.

To the extent an eligible project in Section 1, 2, and 3 above is able to generate RECs, the grant recipient agrees that the Company, on behalf of the Schedule 95 program, has the first right to claim a share of the project’s REC output. The amount of these RECs is expressed as a percentage of output when comparing the Schedule 95 financial contribution to the overall cost of the project. The proportional amount of these RECs will be retired on behalf of the program.

SCHEDULE 95 – Continued

SPECIAL TERMS AND CONDITIONS

1. Service under this schedule is subject to the Rules and Regulations contained in this tariff.
2. Customers may apply for or terminate from this schedule anytime during the year. The Company may limit availability of this program subject to available renewable power at the cost incurred under the terms described above.
3. The above Monthly Billing is subject to increases as set forth in Tax Adjustment Schedule 58.
