)	
)	ORDER NO. 35496

On July 29, 2022, Avista Corporation (“Company”), filed its annual Power Cost Adjustment (“PCA”) Application. The PCA is an annual adjustment mechanism that tracks changes in the Company’s “hydroelectric generation, secondary prices, thermal fuel costs, and changes in power contract revenues and expenses.” Application at 2. The Company represents that if its Application is approved, residential customers using an average of 892 kilowatt hours (“kWh”) per month would see their monthly bills decrease from \$86.29 to \$85.39, a decrease of \$0.90 per month, or 1%. The Company requests that this matter be processed by modified procedure, and that the proposed rates take effect on October 1, 2022.

The Commission now issues this Notice of Application and Notice of Modified Procedure establishing deadlines for interested parties to comment, and the Company’s reply.

BACKGROUND

The present surcharge was effective October 1, 2021, and was primarily associated with power supply costs that were higher than those included in retail rates, due to higher wholesale electric and natural gas prices. Case No. AVU-E-21-09, Order No. 35184. The surcharge rate ends on September 30, 2022. *Id.*

NOTICE OF APPLICATION

YOU ARE HEREBY NOTIFIED that the Company requests the Commission approve of a PCA surcharge rate of 0.150¢ per kWh to be effective from October 1, 2022 to September 30, 2023. The Company notes that the proposed PCA surcharge would represent a decrease from the 0.251¢ per kWh currently being collected as approved in Order No. 35184. If approved, the new PCA surcharge would represent an overall decrease in revenue of \$3.1 million or 1.2% in Company revenues when accounting for the expiration of the existing surcharge.
