Hayden, ID 83835

Name of Utility Company: Avista

Case ID: AVU-E-23-01

Comment: "I am extremely concerned with Avista requesting to raise rates another 20%. They already raised rates last September. And with inflation and recession at our door, along with local levies being requested from schools, sheriff, etc. it is just unrealistic for every single one our bills and taxes to increase, while many of us are not getting raises to compensate for the squeeze. It's ridiculous and needs to stop!"

Case ID: AVU-E-23-01

Comment: "My power bill is already 900 to 1100.00 a month. If avista is allowed to raise rates again I will be forced to go without power. We are forced to use avista with no other power company allowed to service us. "

Name: Tyler Wolfe
Submission Time: Mar 15 2023 7:12PM

Comment: "I believe Avista asking for a rate hike like this is absurd. The cost of living over the past year to 2 years has been ridiculous. A large majority of families now days are barely getting by. A rate hike would cause a lot more family's to be in hard times. This isn't a little hike in price. Why don't they make people with electric cars register with them and charge them more. The unreal electric car craze is insane and I don't think the average person should have to pay extra to help pay for the power needed for electric cars. Our grid is already taxed adding car charging is going to over load it and they will have to upgrade everything and produce more power. You want an electric car they should be the ones paying more. Not the typical house hold family "

Case ID: AVU-E-23-01

Comment: "I do not support the increase in gas and utilities monthly. Our bill has nearly doubled already in the last year and not increasing usage. It's outrageous. We are already living at 64 degrees trying to keep the utilities down from the last increase. Increasing this bill again is just greed and hurts the people "
