Comment: "It is wrong to raise the base rate for electricity and for gas. People who can't afford what they are paying for now will only be punished by raising their base rate. They conserve energy to save on their bills. Raising the base rate will cost them more no matter they're attempt to keep their bill lower. "

Comment: "I am a senior citizen constrained to a below poverty level income. The rate increase you are asking for will cause undue hardship on my existence. Please exempt those of us that are on a below poverty income from this huge rate increase."
