Comment: "If I follow the rate increase correctly I am paying \$7. Minimum for electricity and in 2024 it will be going up to \$20. That's a huge increase in a short period of time and I am sure it will impact many of us seniors... figuring the increase on electric and on gas in 2024 it'll be \$40 minimum versus the \$14 now. I feel there should be some considerations or spread over a longer period of time. Thank you for listening."
