To Whom It May Concern:

Regarding increasing electric and natural gas cost begining in September 2023. I oppose the rate increases, as proposed. We have had increases in the past three years and under the current economy this rate increases will be more financial burden on the Citizens of Idaho. I for one, object to the New Green Deal and do not want to support it with higher rate increases. It's a scam that is crushing America and Americans. Where is our protection under the constitution? Please don't force these rate increases on Idahoans.

Sincerely

A handwritten signature in black ink, appearing to be 'CP' or 'Cheryl Pomplun'.
