On August 29, 2025, Avista Corporation, doing business as Avista Utilities ("Company"), filed two applications with the Idaho Public Utilities Commission ("Commission") requesting prudence determinations of its 2024 Electric ("Electric Application") and Natural Gas ("Natural Gas Application") Energy Efficiency Expenses (collectively "Applications").

The Company requests an order designating its electric energy efficiency expenditures from January 1, 2024, through December 31, 2024, funded through the Company's Schedule 91 Energy Efficiency Rider Adjustment in the amount of \$17,276,972, as prudently incurred.

The Company also requests an order designating its natural gas energy efficiency expenditures from January 1, 2024, through December 31, 2024, funded through the Company's Schedule 191 Energy Efficiency Rider Adjustment in the amount of \$2,279,817, as prudently incurred.

At the September 10, 2025, Decision Meeting, Commission Staff recommended the Commission process the Applications together and establish a 21-day intervention deadline.

The Commission finds that processing these cases together is reasonable and will be an efficient use of resources for any parties wishing to join. If circumstances change, or the issues diverge, the Commission may consider bifurcating the cases at that time.
