IDAHO PUBLIC
UTILITIES COMMISSION

Case # 1 P.C.-E-11-08

Dear Sirs,

We respectfully request your support in maintaining control of the Idaho Power Company rates. As a retired couple on a fixed income, we continually make a serious effort to reduce our cost of living as do numerous other retirees. I believe we represent a significant portion of American citizens who have worked hard to support ourselves and the nation by not becoming dependant on the various forms of government support.

In these tough times we struggle to reduce our use of power but we find that power rates continue to creep up and prevent us from reducing our costs. In these days when so many costs are rising, there are fewer opportunities to reduce cost of living. This situation will have serious implications for retirees in the near future.

I believe that your Commission has an opportunity to bring some real relief to at least some of our cost increases. We thank you for considering this request.

Respectfully

Mr & Mrs Rolland Saylor

Please describe your comment briefly:

For those of us on fixed incomes and just barely making ends meet at this time, any increase in utility prices would be devastating. Please give Idaho residents a break Not Idaho power earnings.
