IDAHO PUBLIC  
UTILITIES COMMISSION

LISA D. NORDSTROM  
Lead Counsel  
[lnordstrom@idahopower.com](mailto:lnordstrom@idahopower.com)

February 23, 2018

**VIA HAND DELIVERY**

Diane Hanian, Secretary  
Idaho Public Utilities Commission  
472 West Washington Street  
Boise, Idaho 83702

Re: Case No. IPC-E-17-13  
New Schedules for Residential and Small General Service Customers with  
On-Site Generation – Idaho Power Company's **CORRECTED** Page 35 to the  
Rebuttal Testimony of David M. Angell

Dear Ms. Hanian:

Enclosed for filing are an original and eight (8) copies of Idaho Power Company's **CORRECTED** page 35 to the Rebuttal Testimony of David M. Angell in the above matter (in both clean and redline). This replacement page 35 corrects the formatting of the quoted portions of testimony and more clearly distinguishes between them. The wording itself has not changed.

If you have any questions about the enclosed documents, please do not hesitate to contact me.

Very truly yours,

Lisa D. Nordstrom

LDN:kkt  
Enclosures

1 customers with on-site generation. Idaho Power has requested  
2 that the Commission open a generic docket at the conclusion of  
3 this case where stakeholders and other utilities can collaborate  
4 to assess the benefits and costs that DG brings to the electric  
5 system.

6 Q. Were there any other suggestions made by Mr. Beach  
7 that you would like to address?

8 A. Yes. Mr. Beach mischaracterized a statement from  
9 my direct testimony. Mr. Beach claimed that I asserted:

10 any distribution benefits will be limited to  
11 the five-year period in which Idaho Power  
12 plans distribution upgrades and expansions.<sup>24</sup>  
13

14 To clarify, the statement I made was:

15 Idaho Power is able to forecast distribution  
16 circuit and substation capacity requirements  
17 with some certainty five years into the  
18 future. This planning horizon period allows  
19 the Company to investigate options to avoid  
20 facility overloads, select more cost-  
21 effective options, and design and construct  
22 improvements to meet the identified  
23 overloads.<sup>25</sup>  
24

25 I did not suggest that distribution benefits resulting  
26 from customers with on-site generation will be limited to a  
27 five-year period as such benefit determination is outside the  
28 scope of this docket.

---

<sup>24</sup> Beach DI, p. 27, ll. 24-25.

<sup>25</sup> Angell DI, p. 18, ll. 4-10.
