Address: 3966 Reed Street  
Garden City Idaho, 83714

Name of Utility Company: Idaho Power

Comment: I would like the Idaho Utilities Commission to Please reject Idaho Power's current proposal. To Idaho Power: I would love to have solar power, however trees and a sketchy roof, (on an old mobile home) make it a difficult challenge. I will stick with traditional power for now. However, I think the power of the future is solar and wind. It seems to be the most environmentally sustainable power. Please! Embrace these solar and wind systems that have already been developed. Be an innovative Power Company! Help us to afford our energy bills and needs while you continue to be a viable company providing energy from clean sources. I believe I can and will be able in the future to purchase my power from a company that uses solar and wind power. It's tempting. I would like to get clean energy from Idaho Power. Thank you, Cymry B. Reed

Name of Utility Company: Idaho Power

Comment: Idaho Powers net metering program enables local citizens to support Idahos clean energy sector. Supporting this growing sector of our economic reduces the current reliance on out-of-state fossil fuels for roughly 50% of our electricity.

Investing in local solar power keeps more energy dollars in our communities and allows individuals to meet their own energy needs. Individual control and local economic growth are Idahoan values.

Please stand up for these values by maintaining the current net metering program.

Comment: Idaho should be growing clean energy options to reduce our reliance on out-of-state fossil fuels. The net metering program is the only means for individual Idahoans to invest money in their own locally generated clean energy.

The Idaho PUC staff looked at Idaho Powers documents and found no reason to segregate solar customers. Instead, I ask the PUC to direct Idaho Power to consider the full range of costs and benefits that arise when customers avoid utility power and meet their own needs with local clean energy.

Because I cant choose my utility, I rely on the PUC to ensure fair programs. Please maintain the current net metering program.
