**Date:** Thursday, January 28, 2021 10:33:06 AM

---

Dear Idaho Public Utilities Commission:

On a recent trip to Italy and Germany, I saw that ALL new home construction included rooftop solar, as mandated by law. This isn't radical stuff, it's easy and common sense action that we should've have been doing decades ago.

We are Idaho Power customers and we support clean energy because because we're concerned about the growing threat of climate change and the damaging effects to the environment caused by traditional energy production. Please do all you can to encourage and reward local clean energy production, such as residential solar panels.

Regards,
