Kristine Raper, Commissioner  
Eric Anderson, Commissioner

Case No. IPC-E-20-26

Live-streamed public workshop scheduled for Idaho Power's application to change metering requirement and grandfather existing commercial, industrial, and irrigation customers with on-site generation

**BOISE (Sept. 11, 2020)** – Staff with the Idaho Public Utilities Commission will host a live-streamed public workshop to discuss Idaho Power's application that proposes changes to its net metering program for large commercial, industrial, and irrigation customers with on-site generation.

Idaho Power filed an application with the commission seeking to replace the existing two-meter requirement with a single-meter requirement as of Dec. 1, 2020, require large commercial, industrial and irrigation customers who sign up for the net metering program on or after Dec. 1, 2020, to be subject to any future Commission-approved changes to the billing methodology and compensation structure for those groups of customers and grandfather customers who have applied to take service under Schedule 84 before Dec. 1, 2020, to the present terms in Schedule 84 for 10 years.

The commission is located at 11331 W. Chinden Boulevard, Building 8, Suite 201-A. Because of health concerns regarding Covid-19, the public is encouraged to participate through the live-streamed workshop instead of in person. The workshop is on Monday, Sept. 28, from 6:00 p.m. to 8:00 p.m. (MDT). Commission staff will share information on the application and answer questions from the public. Representatives from Idaho Power will also be available to address customer questions and concerns. Those interested in participating online can do so by visiting [idahogov.webex.com](http://idahogov.webex.com) and entering number 133 703 0485. At the next window, enter your name, e-mail address and the password MondayHearing28. Those interested in participating can also do so via phone by calling 1-415-655-0001, and entering the access code 133 703 0485.
