Subject: Speak up for a resilient Idaho!Friday, March 19, 2021
Date: 1:33:15 PM

Dear Idaho Public Utilities Commission Commission Secretary,

Thank you for the opportunity to provide comments.

The energy sector needs to invest in reducing the negative impacts of climate change in Idaho.

I urge the Idaho Public Utilities Commission to support Idaho Power's wildfire mitigation plan and help prepare Idaho for the future impacts of climate change.

As a lifelong Idahoan, I have seen the effects of climate change on our environment and know that time is not on our side. My children deserve a future in Idaho that is sustainable and safe.

Regards,
Vanessa Montgomery
