**Date:** Wednesday, April 27, 2022 10:39:37 AM

---

Hi Jan!

Thank you for giving Idahoans the opportunity to comment on IPC-E-21-17 regarding the exit of Bridger coal by 2028, and managing the comments that come to the PUC.

I am verifying that you have received comments that we have encouraged our constituents to send. I have not seen them on the PUC website, and see on my end that we have encouraged about 40 of our supporters to send emails your way, through both the comment form and/or to the [secretary@puc.idaho.gov](mailto:secretary@puc.idaho.gov) address.

Warmly,

Lana

*"Historically, pandemics have forced humans to break with the past and imagine their world anew. This one is no different. It is a portal, a gateway between one world and the next. We can choose to walk through it, dragging the carcasses of our prejudice and hatred, our avarice, our data banks and dead ideas, our dead rivers and smoky skies behind us. Or we can walk through lightly, with little luggage, ready to imagine another world. And ready to fight for it." - Arundhati Roy, 'The Pandemic is a Portal'*

-- Sent from **Stevie Gawryluk** to **Idaho PUC** on Mar 24, 2022 --

Dear Idaho Public Utilities Commission:

I wanted to thank you for planning to exit the Bridger coal plant! I ask you to choose to use modern financial tools to reduce this interest rate to closer to 5%. There are ways to raise the needed \$27 million but customers should not be the ones to float the bill! Save us millions and use a little of your own money to fund this exit.

-- Sent from **Will Tiedemann** to **Idaho PUC** on Apr 7, 2022 --

Dear Idaho Public Utilities Commission:

The Idaho Public Utilities Commission should strongly push for Idaho Power to voluntarily engage the Utility Cost Reduction Bond mechanism and save loyal customers money rather than increase profits for Idaho Power investors. In turn, Idaho Power has a duty to choose their customers over investors and must pursue the Utility Cost Reduction Bond.

Idaho Power's "Purpose" (as quoted from their website) is as such; "We are passionate about powering lives with reliable, affordable, clean energy, while developing innovative solutions every day. Serving those who depend on us is at the center of everything we do. We all prosper by committing to the needs, safety and success of our customers, communities, employees and shareholders." The first party or partner mentioned in this Purpose statement is "customers" while "shareholders" are the very last. Undoubtedly, the wording and order of this Purpose statement is deliberate and was not chosen lightly by Idaho Idaho. Idaho Power must live up to its self stated Purpose and put customers first!

-- Sent from **Helen Hawley** to **Idaho PUC** on Apr 8, 2022 --

Dear Idaho Public Utilities Commission:

Idaho Public Utilities Commission should choose customers over shareholders and save money while closing coal!

While our current electric rates are designed to cover Bridger's costs to 2034, no further increases would be needed to customers; therefore, Bridger's plans to collect additional dollars through 2030 would solely benefit the shareholders at the expense of customers. There is no justification for this. The claim of "needing additional funds for the transition" is a blatant attempt to take money from consumers, and solely for the benefit of increasing revenue unnecessarily punitive.

Choose customers over shareholders and help Idaho keep the air clean, as well as its waters. When the air is dirty, the water is as well.

Thank you.

-- Sent from **Lisa Hecht** to **Idaho PUC** on Apr 8, 2022 --

Dear Idaho Public Utilities Commission:

Dear Idaho PUC,

I am both a shareholder and a customer of Idaho Power/IDACORP. I am also a retired electrical and computer engineer who has watched prices for solar and wind energy drop below that of coal and now gas. We also know that the impacts of burning coal and methane are making our planet rapidly uninhabitable. Therefore, as a mother, and homeowner with solar on her home who has cut her carbon footprint by 75%, I ask you to retire Idaho's coal plants ASAP and replace them with clean energy, not methane.

Idaho Public Utilities Commission should choose customers over shareholders and save money while closing coal! Idaho has other investments that will serve customers better.

Dear Idaho Public Utilities Commission:

Do the right thing for the long run!!

Idaho Public Utilities Commission should choose customers over shareholders and save money while closing coal!

Regards,  
Kelly Christenson

Dear Idaho Public Utilities Commission:

I'm tired of rate payers having to pay more so shareholders make a larger profit. Eldaho Public Utilities Commission should choose customers over shareholders and save money while closing coal!
