Mr. Hill is the President of the ISON Board of Directors. ISON is a non-profit corporation in Idaho. Pursuant to IDAPA rule 43 Mr. Hill can represent ISON as an officer of the corporation in this administrative proceeding to design a study of distributed values.

Copies of all pleadings, production requests, production responses, Commission orders and other documents should be provided as noted above.

2. This Intervenor, ISON, is a non-profit corporation representing mainly Idaho residential solar owners and claims direct and substantial interest in this proceeding in that this filing is the first in a series that may initiate changes in rates and requirements that may negatively affect their participation in on-site generation. Intervenor status is necessary to protect our members' interests in protecting and promoting solar generation in Idaho.

3. ISON intends to participate herein as a party and, if necessary, to introduce evidence, cross-examine witnesses, call and examine witnesses, and be heard in argument. The nature and quality of evidence which this Intervenor will introduce is dependent upon the nature and effect of other evidence in this proceeding.
