Subject: Stand up for solar! Case Number: IPC-E-21-21.
Date: Friday, September 24, 2021 5:34:54 PM

Dear Commission Secretary PUC,

Solar is an important player in Idaho's clean energy future! And customer-owned energy production benefits the community by strengthening local grids instead of relying on long-distance power lines. We must work together to ensure local, clean, customer-owned power is an option for all Idahoans.

Regards,

Dear Commission Secretary PUC,

Solar studies must accurately value the benefits of local clean energy production. Local, clean energy benefits us all and plays an important role in working towards a clean energy future. I have heard that the reason the utility company wants to change the solar reimbursement rate is because they have fixed costs that don't change. To me, the reasonable thing to do would be to raise the fixed price that is paid every month, not the price per watt. I hope that this is addressed in the study.

Regards,
Ann Vance
