Subject: Move toward a brighter future! Case Number: IPC-E-21-21.
Date: Tuesday, November 2, 2021 4:37:44 PM

Dear Commission Secretary PUC,

My husband, Gary Richardson, and I installed solar in June 2020. We know we won't live long enough to recoup the expense, but we strongly believe clean energy production can slow down climate change. Please require Idaho Power to continue crediting solar power producers at the same rate IP pays for energy from other sources. I want the rooftop solar valuation study to be fair and correctly value the benefits that local, clean, customer-owned power generation provides. We must work together to ensure customer-owned power is an option for all Idahoans. Thank you!

Regards,
Diane Ronayne
