Comment: "I do not want these above ground power lines bordering our Property and servicing the folks in Ketchum. This is way too pricey a project and does not make any sense....also your interest rates are ridiculous! Especially NOW. When rates are super low. But it will be na eyesore and many health issues may arise which makes us ALL liable for damges to anyone's health. Please look to less expensive and Offensive alternatives. Underground would not be less expensive in short term....but as far as our aesthetics and liability exposures it would be HUGE! please consider ALL LINES UNDERGROUND. In today's huge litigious world.....and all of us NEEDING to escape to this wonderful area to bring Ketchum and surrounding communities our fair share of spending....we only ask to maintain the original reason WE ALL COME HERE. We came 18 years ago.....and aren't planning to be run out by some ugly and unhealthy lines above us while golfing and biking. Thank you. p.s. Ketchum resident should pay this entire tab, since we goet none of the benefits of these lines here at the Valley Club."
