Telephone: 208-320-5472
Address: 801 N Haines St
Boise, ID 83712

Name of Utility Company: Idaho Power

Case ID: IPC-E-21-40

Comment: "Writing to voice my support for a resolution that would mandate community solar within high usage urban areas. This solution would provide a benefit within fighting man made climate change and a relief in the growing strain of high energy prices. As instability continues in Europe, it's obvious that the United States should fund a more local power grid solution that can be more resilient than today's current infrastructure. Make this happen."
