---

On June 30, 2022, Idaho Power Company (“Company”) filed an Application requesting that the Commission complete the study review phase of the multi-phase collaborative process being undertaken by the Company to study the costs, benefits, and compensation of net excess energy associated with customer on-site generation. *Application* at 1-2. The Company also filed the Value of Distributed Energy Resources study and associated appendices (“Study”), a customer notice and bill insert, and the Direct Testimony of Grant T. Anderson, Regulatory Consultant.

The Company requests the Commission: (1) establish a formal process for the public and other parties to comment on the Study; and (2) issue an order declaring that the Study complies with previous Commission directives and directing modifications to the Company’s on-site generation service offerings. *Id.* at 2.

On July 14, 2022, the Commission issued a Notice of Application and Notice of a 21-day Intervention Deadline. On August 10, 2022, the Commission Staff (“Staff”), all pending and current intervenors, and the Company began communicating regarding a proposed schedule for processing this case.<sup>1</sup> At the August 16, 2022, decision meeting, the Commission considered two proposed procedural schedules.

The Commission now provides notice of the procedural schedule, notice of virtual public workshops, notice of comment deadlines, and instructs all parties to work with Staff to develop a minimum of two customer hearing times and dates to present to the Commission for its
