BEFORE THE IDAHO PUBLIC UTILITIES COMMISSION

IDAHO POWER COMPANY'S ANNUAL COMPLIANCE FILING TO UPDATE THE LOAD AND GAS FORECASTS IN THE INCREMENTAL COST INTEGRATED RESOURCE PLAN AVOIDED COST MODEL.	)	CASE NO. IPC-E-22-26
	)	ERRATA TO IDAHO POWER COMPANY'S ANNUAL COMPLIANCE FILING

---

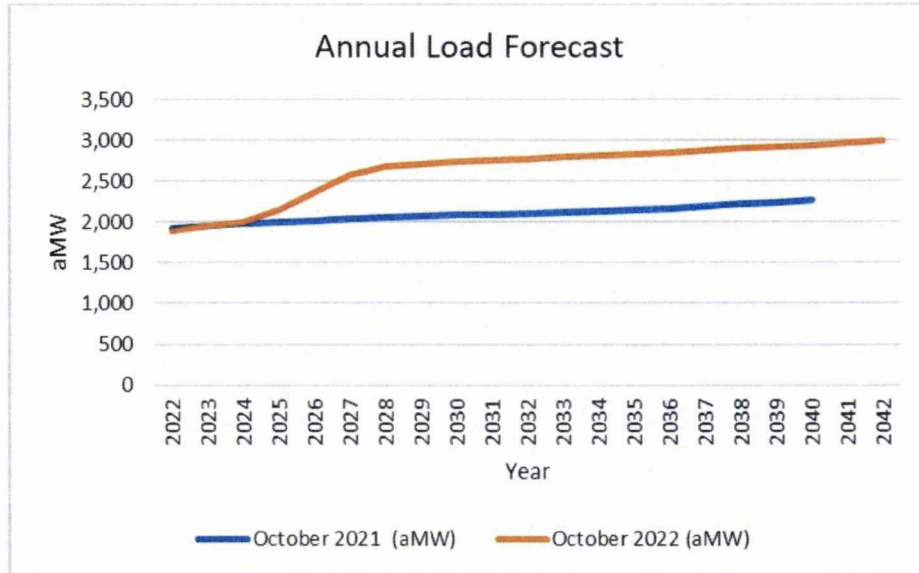

Idaho Power Company ("Idaho Power") hereby respectfully submits to the Idaho Public Utilities Commission ("Commission") this errata to its earlier filing on October 14, 2022, in this case. In the October 14, 2022, filing, Table 1, which provides the average annual load forecast from this year (October 2022) and last (October 2021), contained a labeling error in the October 2021 forecast column. Specifically, the data in the October 2021 forecast column for years 2022-2040 was labeled incorrectly. The 1,895 MW value shown for 2022 in the October 2021 column was actually the forecast average annual load for 2021, and all subsequent average annual forecasts in that column were shifted

and labeled as a year later than the year for which they should have been shown. The error was also reflected in Graph 1. An updated and correct Table 1 and Graph 1 are provided below.

**TABLE 1**

<b>Year</b>	<b>October 2021 Forecast (aMW)</b>	<b>October 2022 Forecast (aMW)</b>
