INTERRUPTION COMPENSATION COMMISSION ORDER NO. 35888 –
CASE NO. IPC-E-22-30

BACKGROUND

On December 28, 2022, Idaho Power Company (“Company”) applied to the Idaho Public Utilities Commission (“Commission”) for an order prior to the start of the June 15 – September 15 interruption period: (1) establishing a compensation rate of \$0.0734 per kilowatt (“kW”) per hour of interruption for Large General Service Rates under Schedule 20, and \$0.0835 per kW per hour of interruption for Large Power Service Rates (“Proposed Rates”) or, in the alternative, (2) deferring implementation of a compensation structure for the mandatory interruption requirement of Schedule 20 until evaluation of cost assignment responsibility for Schedule 20 was completed in a general rate case.

On August 14, 2023, the Commission issued Order No. 35888 approving the Company’s proposed interim interruption compensation rates under Schedule 20 for Large General Service and Large Power Service to be set at \$0.0734 per kW per hour of interruption and \$0.0835 per kW per hour of interruption respectively.
