Comment: "they now want a double digit increase?! on top of a Suez increase...why can't they increase tier one to allow more low income customers some slack? any increase should be only for tier three customers."

I just received an email from the Customer, and she meant this to be a comment to the IPC-E-23-11 rate case. Can you please move it to the case please?

Thank you!

Comment: "As a local resident I am submitting my comment about the proposed fee increase by Idaho power. A double digit increase to consumers is too much at this time. Please reject the proposal or at least reduce any approval by 50%. Consumers are already heavily burdened under the current economy. Thank you for your consideration. "
