Comment: "Say no to money grab from Idaho Power. I am writing in regards to Idaho Power's newest attempt to increase prices. This is ridiculous. Nearly every year they seem to request an increase now. Regular consumers are being hit from all sides with corporate created inflation, and Idaho Power is no exception. Idaho Power executives live in the nicest homes in Idaho while many of their consumers are barely making enough to buy groceries and pay their mortgages and rents. Please say no to Idaho Power greed. Thank you."
