Comment: "I understand Idaho power is asking to raise rates. I understand the need to accommodate growth in the treasure valley, but I am opposed to a rate increase for those of us who have lived here for years and believe the increase should only affect those who have moved into the area during the last 10 years since they are the reason you feel you need to increase rates. There should be an impact fee issued to newcomers to Boise. It is because of the population growth that infrastructure becomes insufficient. Residents who have lived in Boise for years should not have to incur that cost."
