nampa, ID 83686

Name of Utility Company: Idaho Power Company

Case ID: IPC-E-23-11

Comment: "I object to the utility increase since Idaho Power should not be shutting down the coal fire plants like the Jim Bridger plant in Wyoming. Idaho Power should not be listening to environmentalists like the EPA. The coal fire plants are very economical. Wind turbine farms are very bad for the environment and are not cost effective."
