Name of Utility Company: Idaho Power

Case ID: IPC-E-23-11

Comment: "We object to the proposed increase. We are senior citizens living on a fixed income. Our social security increase from last year has already been wiped out with inflation. We have had to reduce expenditures and we do not understand why Idaho Power cannot do the same to obtain the same objective. We have looked into solar power/panels, but quite frankly we would not expect to live long enough to recoup the investment. We would like to have natural gas, but it is not available in our area. thank you for considering our comments."
