Comment: "Hi. I am frustrated that Idaho power isn't using funds just for making, using power. I have seen Idaho power advertising. I don't have another choice for another power company. I did learn through their ads that they employ scientists ECT. I get it you should use common sense whenever you have this vast of impact, but to employ not confer with scientists? It seems that there is a lot of money spent that doesn't need to be spent. It seems that whenever Idaho power wants an increase you all are ok with it right off, no hesitation. Sincerely, Kathryn Ralstin "
