Comment: "Hello,

I'm writing to object to the Idaho Power Annual Power Cost Adjustment for 2023. As a residential consumer, I feel that 10.34% is too great of an increase.

As seniors, we are impacted disproportionately greater than one would think. Our income flow is from Social Security and a small pension. We are faced with the inflation of our basic needs and don't see any relief in sight.

Please scrutinize Idaho Power's request more closely and take it down into the single digits if possible.

Thanks,

Tom and Linda Ady"

IDAHO PUBLIC
UTILITIES COMMISSION

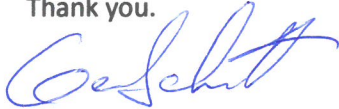

To whom it may concern,

I have reviewed the financials of Idaho Power and Ida Corp. In the past seven years operating expenses have been almost the same while income revenue has steadily increased. In 2022 they had net profit of 258 million.

If, after paying a healthy dividend and still having that large amount of profit, it seems to me that an increase is unjustified.

Please consider either reducing the amount of their increase or denying their application.

Thank you.
