The Commission authorized the Company to implement its revised tariff schedule with the terms of the Settlement, effective January 1, 2024.

On May 1, 2023, the Company filed an application with the Commission, in Case No. IPC-E-23-14, proposing changes to the Company’s on-site and self-generation tariffs. On December 29, 2023, the Commission issued Order No. 36048, approving the Company’s application as modified by the Company’s revised proposal and the provisions of the Order, effective January 1,

On October 25, 2023, the Company filed an application, in Case No. IPC-E-23-28, requesting authorization to implement the Bonneville Power Administration's residential and small farm energy rate credit from January 1, 2024, through December 31, 2025. COMMISSION FINDINGS AND DECISION

The Commission has jurisdiction over the Company's applications and the issues in these cases under Title 61 of the Idaho Code including *Idaho Code* §§ 61-301 through 303. The Commission is empowered to investigate rates, charges, rules, regulations, practices, and contracts of all public utilities and to determine whether they are just, reasonable, preferential, discriminatory, or in violation of any provisions of law, and to fix the same by order. *Idaho Code* §§ 61-501 through 503.

Having reviewed the record and all submitted materials, the Commission finds that the updated tariffs submitted in the Company's compliance filing on December 29, 2023, and as modified and replaced by the supplemental compliance filings on January 10 and 12, 2024, comply with the requirements set forth in Order Nos. 36042, 36048, and 36036.
