Boise, ID 83703

Name of Utility Company: Idaho Power

Case ID: IPC-E-23-14

Comment: "To Whom It May Concern:

I request that if you decide to allow the changes Idaho Power has proposed, at the very least, please give consideration to those customers with existing "non-legacy" systems in place. Idaho has a very small percentage of residences and businesses with solar systems in place. Those systems already in place are not enough to create a hardship for other customers. In fact, the existing solar systems undoubtedly help support the stability of the grid during peak demand in the heat of summer. I request that you consider exempting all existing systems from the proposed changes, much as you did in 2019.

Sincerely,
Therese Gerard"
