Boise, ID 83709

Name of Utility Company: IDAHO POWER

Case ID: IPC-E-23-14

Comment: "I totally disagree with Idaho Power's proposed structure as outlined in letter received May 2,2023. The proposed variable system is way to confusing for owner of of residential solar.We basically paid for power under a single rate. Under the current agreement are reimbursed with credits at that rate.

The proposed Idaho Power rate structure leaves the setting of price to be paid for electricity in their hands. This seems to to be a system that has potential for abuse by the company.

The Commission should not have commissioned a study by Idaho Power but accepted studies from all parties with some independent review process. "
