---

On May 5, 2023, Idaho Power Company (“Company”) filed a petition (“Petition”) with the Idaho Public Utilities Commission (“Commission”) for a three-month extension to file the Company’s 2023 electric integrated resource plan (“IRP”). The Company requests that the Commission modify the filing date of the 2023 IRP from the last business day of June 2023 to the last business day of September 2023. The Company requested that its Petition be processed through modified procedure.

**NOTICE OF PETITION**

YOU ARE HEREBY NOTIFIED that the Company represents that its IRP examines the demand for energy over the next 20 years and identifies the best strategy to meet the forecasted demand for its customers. Petition at 2. The Company updates its IRP every two years and describes the Company’s projected need for additional electricity and the resources needed to balance customer load, system reliability, environmental responsibility, efficiency, risk, and cost. *Id.*

YOU ARE FURTHER NOTIFIED that the Company represents that at the start of the 2023 process, the Company planned to share preliminary modeling results in the Spring of 2023; however, input changes, model refinements, and model validation and verification have taken more time than expected. *Id.* at 4.

YOU ARE FURTHER NOTIFIED that the Company represents that permitting the Company to delay filing until the end of September of 2023 will ensure a more complete process, and that a delay is in the public interest and good cause exists to allow the modification of the filing date to more fully allow public participation prior to filing. *Id.*
