On October 2, 2023, Idaho Power Company ("Company"), applied for Commission approval of proposed modifications to Schedule No. 82—Flex Peak Program ("Schedule 82"). The Company proposes revising Schedule 82 to (1) modify certain payment structures; (2) add a waiver provision covering participating customers whose Load Control Device fails; (3) revise the definition of the "Day of" Load Adjustment; (4) establish an option to extend the four-hour notification limit for certain customers; and (5) add definitions for certain terms along with other minor updates related to the other proposed changes. The Company requested that the Application be processed via Modified Procedure and an effective date of April 15, 2024.

On April 12, 2024, the Commission issued Order No. 36133, approving the Company's Application with certain modifications. In its Order, the Commission directed the Company to submit a compliance filing for Schedule 82 to include: (1) language for the advanced notification option as a pilot program as recommended by Staff; (2) additional language on the "Day of" Load Adjustment; (3) correcting the inadvertent change to Sheet No. 82-5 that allows participants to change load nominations during a Program week; and (4) other changes as needed to reflect the contents of the Order.
