Re: Case No. IPC-E-23-27
*Idaho Power Company's Application for Approval of Capacity Deficiency To Be Utilized
For Avoided Cost Calculations*

Dear Ms. Barrios-Sanchez:

Idaho Power Company ("Company") has received the letter and attachments from Commission Staff dated May 16, 2024, advising the Company of the updated avoided cost rates for qualifying facilities using the surrogate avoided resource ("SAR") method, which have been recalculated to reflect the Company's adjustments to its capacity deficiency date determination as instructed in Order No. 36070, as well as the additional information relative to the new capacity deficit date requested by Staff for purposes of updating the SAR model. Idaho Power has reviewed the information and believes that Staff has correctly updated the SAR model to reflect the new capacity deficit information and further agrees that Staff has correctly calculated the SAR avoided cost rates for Idaho Power using the Commission-approved methodology.

Please feel free to contact me if you have any questions. Thank you.

Sincerely,

A handwritten signature in black ink that reads "Megan Goicoechea Allen".

Megan Goicoechea Allen
Corporate Counsel
