On May 8, 2025, Idaho Power Company (“Company”), applied to the Idaho Public Utilities Commission (“Commission”) requesting authority to update its operation and maintenance (“O&M”) charges applicable to Schedule 72, generator interconnections to Public Utility Regulatory Policies Act (“PURPA”) qualifying facility sellers effective January 1, 2026 (“Application”).

On December 31, 2025, the Commission issued Order No. 36894 approving the Company’s proposed monthly Schedule 72 O&M charges as amended by the Errata and Corrected Pages to Application and Direct Testimony of Riley Mahoney, with an effective date of January 1, 2026. The Order also required the Company to modify Schedule 72 to reflect that the transmission O&M charge applies to transmission lines of 138 kilovolt (“kV”) and above.

On January 28, 2026, the Company submitted a compliance filing with a proposed updated Schedule 72 in response to the Commission’s instructions. At the Commission’s Decision Meeting on February 17, 2026, Commission Staff presented a Decision Memo indicating it had reviewed the compliance filing and verified that the updated Schedule 72 was consistent with Order No. 36894.

The Commission now issues this Order approving the updated Schedule 72 contained in the Company’s compliance filing.
