

## BEFORE THE IDAHO PUBLIC UTILITIES COMMISSION

<b>IN THE MATTER OF THE APPLICATION OF ROCKY MOUNTAIN POWER TO CLOSE THE NET METERING PROGRAM TO NEW SERVICE &amp; IMPLEMENT A NET BILLING PROGRAM TO COMPENSATE CUSTOMER GENERATORS FOR EXPORTED GENERATION</b>	) ) ) ) ) ) )	<b>CASE NO. PAC-E-19-08  REVISED NOTICE OF LIVE- STREAMED PUBLIC WORKSHOP</b>
--	---------------------------------	---

---

On April 23, 2020, Rocky Mountain Power, a division of PacifiCorp (“Rocky Mountain Power” or “Company”) filed a supplemental application (“Supplemental Application”) asking the Commission to close Electric Service Schedule 135 – Net Metering Service (“Schedule 135” or “Net Metering Program”) to new customers as of July 31, 2020. The Company also asked the Commission to open Electric Service Schedule 136 – Net Billing Service (“Schedule 136” or “Net Billing Program”) to new customers as of September 1, 2020. In summary, the Company asks that customers on Schedule 135 as of midnight on July 31, 2020 be allowed to stay on Schedule 135 for ten years (“grandfathering”). The Company estimates the current retail rate paid to Schedule 135 customers is about 12.5 cents per kilowatt-hour. The Company requests compensation under Schedule 136 be based on an Export Credit Rate of 2.24 cents per kilowatt-hour. For information on how the Company proposes to calculate the Export Credit Rate, see Order No. 34661 and the Company’s Supplemental Application at ¶ 15, 16, 17, 18, and Att. 1.

On May 6, 2020, the Commission issued a Notice of Supplemental Application, Notice of Public Hearing, and Notice of Comment Deadlines. The Commission noted it would process this Supplemental Application in two phases, a “study design phase” and a “study review phase.” The case now is in the study design phase, and the Commission is seeking public and party input regarding the Company’s grandfathering proposal as well as what elements the parties and public want studied pertaining to calculation of the Export Credit Rate.

On June 5, 2020, the Commission Secretary issued a Notice of Live-Streamed Public Workshop. The Commission Secretary now issues this Revised Notice of Live-Streamed Public Workshop with **updated log-in and dial-in information (below)**.

The Commission updated its platform subscription to allow more participants and updated log-in and dial-in credentials to be more user friendly. The dial-in and call-in information in this Revised Notice supersedes the information in the Notice issued on June 5, 2020.

## REVISED NOTICE OF LIVE-STREAMED PUBLIC WORKSHOP

YOU ARE HEREBY NOTIFIED that the Commission Staff will hold a virtual public workshop to be live-streamed for Rocky Mountain Power customers on **THURSDAY, JUNE 18, 2020, COMMENCING AT 6:00 P.M. ON THE WEBEX PLATFORM.**

Those interested in participating can access the virtual public workshop two ways:

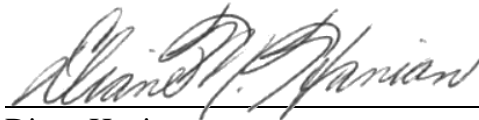

1) **Online: go to idahogov.webex.com and enter the number 133 265 3962.**  
**At the next window, enter your name, e-mail address, and the password ThursdayMeeting.**  
**Or,**

2) **By phone: dial 1-415-655-0001 and enter access code 133 265 3962**

The public workshop is intended to allow Commission Staff to discuss its preliminary views of the Supplemental Application, as reflected in Staff's preliminary comments filed on May 26, 2020, and to receive feedback from the public. *See* Order No. 34661.

YOU ARE FURTHER NOTIFIED that the Supplemental Application, Staff's preliminary comments, Commission orders, and other documents in the case record are available on the Commission's website. *See* IDAPA 31.01.01.281-.284. They can be accessed by going to [www.puc.idaho.gov](http://www.puc.idaho.gov) clicking on "Electric" then "Open Cases" and selecting the case number PAC-E-19-08.

DATED at Boise, Idaho this 12<sup>th</sup> day of June 2020.

Diane Hanian  
Commission Secretary
