**Subject:** RE: Fall River Rural Elect. Coop."s Response Letter Re Chester Project PPA Request - RMP Turn  
**Date:** Friday, October 16, 2020 9:50:27 AM

---

Kyle and Cynthia, I am just checking in on the Chester PPA. We had understood we would hear back from PacifiCorp this week regarding a few items in the draft PPA. To summarize the outstanding items discussed below:

- Section 4.1-Transmission losses- The BPA loss factor to be included in Section 4.1 is 1.9%. Fall River is willing to agree to this item as edited by PacifiCorp with that loss factor.
- Section 6.11 and 6.9 – PacifiCorp was going to respond on our inquiry as to whether the meters and communications equipment at the plant are sufficient for purposes of these sections of the PPA, and if not, what will be required and how long it will take PacifiCorp to install such equipment if it is equipment PacifiCorp must install.
- Section 11.2.4 – PacifiCorp was going to provide a cure period for a failure to achieve the First Delivery Date, which is an item of concern particularly in light of the potential need for any new metering or communication equipment, the timing of installation of which would likely be beyond the control of Fall River.

Other than these clarifications, Fall River finds the draft PPA acceptable and would like to move forward with execution as soon as possible.

Thanks.

Kyle and Cynthia, To follow up on the information regarding losses discussed on the call yesterday, Fall River checked with BPA and they communicated the loss factor is 1.9%.

See BPA OATT, Schedule 11 re the 1.9% BPA System Loss factor -

Greg,

Please find PacifiCorp's turn of the document. We would like to set up a call to discuss metering issues and Exhibit K to make sure we all have the same understanding of how the metering process will work with Net Output. Do you have some time in the next couple of week for a discussion?

Thanks,

Kyle Moore

Kyle and Jake,

I attached Fall River's proposed revisions to the Chester Hydro PPA. I also attached requested materials related to the interconnection of the facility to Fall River's distribution system and the transmission path.

If you would like to discuss our edits, we can be available to do so.
