## **Rocky Mountain Power rate filing reflects low-cost, clean energy transformation**

Rocky Mountain Power filed a request with the Idaho Public Utilities Commission to implement its long-term plan to modernize how the company produces, transports and delivers electricity to power Idaho's future.

The Idaho commission will examine Rocky Mountain Power's request and will determine whether the request should be accepted as filed, modified, or rejected. The rate change ordered by the commission would take effect on January 1, 2022. Rocky Mountain Power's initial request proposes the following changes by rate schedule:
